

Mine Environmental Compliance Report

Generated for Internal Review & Compliance

Facility Name: Northwest Open Cast Mine

Audit Period: Q3 2023

Report ID: MEC-2023-Q3-001

1. Introduction

This report summarizes the environmental compliance status of the Northwest Open Cast Mine operations for Q3 2023.

2. Compliance Summary

Environmental Component	Monitoring Frequency	Compliance Status	Remarks
Air Quality (PM10, PM2.5, Gases)	Bi-Weekly	Partial	Crusher zone exceeded PM10 limits on two occasions. Dust suppression sprinklers being upgraded.
Water Quality (Surface & Ground)	Monthly	Compliant	All discharge parameters within prescribed limits.
Noise Levels	Monthly	Compliant	Noise barriers effective for residential zones.
Waste Management	Quarterly	Compliant	Hazardous waste disposed of via authorized recyclers.

3. Corrective Action Plan

To address the air quality exceedance at the Crusher Zone, water mist cannons have been ordered and will be deployed by Nov 15, 2023.
